

# Clean hands. Guaranteed.

Combat cleanroom contamination with automated hygiene technology.

## Ensuring Optimal Employee Hygiene with CleanTech®

Reduce the risk of cross-contamination and eliminate human error through automation.

### Effective

Clinically proven to remove more than 99.9% of harmful pathogens from hands with each 12-second wash cycle

### Easy to Use

Standardizes the hygiene process and makes compliance monitoring documentation effortless

### Eco-Friendly

Uses less water with no solution waste, while also maximizing energy efficiency

“

I have had nothing but great experiences with Meritech. We haven't had any issues with our systems and we continue to get great support when we have questions.

”

**Tom Franzen**  
*TL Validation, Zoetis*

CleanTech® meets and exceeds even the highest cGMP and ISO Cleanroom standards.

# CleanTech® EVO

## Automated Handwashing Stations

The latest evolution of Meritech CleanTech® Automated Hand Washing Stations, EVO uses intuitive sensors, recyclable solution cartridges and an engaging touchscreen display to help create the perfect hand washing experience that:

- Removes more than 99.9% of pathogens in 12 seconds
- Cuts handwashing time in half and uses less water than sinks
- Standardizes hygiene across shifts and locations
- Streamlines SOPs and improves compliance tracking.
- Has no touch points or cross-contamination between users

### EVO One

Single station free standing system

### EVO Wall

wall mounted single station system

### EVO In-Counter

system that fits into any counter top

### EVO Three

Triple station free standing system

# UltraPure

The perfect hygiene solution for the perfect hand wash

We knew that standard industrial hand soaps wouldn't cut it in our quest to ensure the perfect hand wash. That's why we developed UltraPure specifically for CleanTech®

# Enhance Your Hygiene Zone

## Simultaneous Footwear Hygiene

Achieve more than 99% of pathogen removal from footwear during a 12-second CleanTech® hand wash

### Sole Clean Sanitizing Pan

Evaporates quickly post-application for dry production areas.

## Complete Control

Ensure employees compliance with CleanTech®'s controlled access turnstile

### Controlled-Access Turnstile

Compatible with the EVO One station. Turnstile does not permit entrance to production areas until full automated hand wash is complete.

- ✓ Concentrated solution comes in smaller containers that take up less storage space
- ✓ Smart cartridges work with the system to notify users about refills and reordering
- ✓ Extensively tested to ensure more than 99.9% pathogen removal when used with CleanTech®
- ✓ Protects the integrity of the CleanTech® Handwashing Station
- ✓ Added moisturizers protect skin health

## Trusted by Industry Leaders:

## Manufactured in Colorado

All of our automated hygiene equipment is manufactured and quickly shipped right from our headquarters in Golden, CO.
